

A cross-sectional diagram of a road. The road surface is shown with a central dip and side slopes. The central dip is labeled with a slope of -2.0%. The side slopes are labeled with a slope of -8.0% on both the left and right sides. The diagram shows the road surface, the underlying structure, and the surrounding terrain.

The diagram illustrates a road cross-section with a central drainage ditch. The ditch is represented by a central line with arrows pointing outwards, labeled with a slope of -2.0% on both sides. The outer edges of the road are labeled with a slope of -8.0% on both sides. The diagram shows the road surface sloping down towards the ditch and then up towards the outer edges.
